

Long-Term Party Rule and Local Economic Growth in Taiwan
Per Capita Disposable Income Growth vs. National Average, 1996–2024

← Lagged behind nation | Outpaced nation →

Per capita disposable income growth 1996–2024, relative to national average growth of 18.6%. Administrative boundary changes (county mergers, special municipality upgrades) affect year-over-year comparability and are noted in the full discussion.
